MC Machinery Announces Km Industrial Machinery, Inc. as its Michigan EDM/Machining Dealer

MC Machinery Systems, an industry leader in high-precision Wire and Sinker EDM and milling equipment, has announced that Km Industrial Machinery, Inc., located in Kalamazoo, Michigan, is the new Michigan dealer for its EDM/Machining Division.

A third-generation family-run business, Km Industrial Machinery Vice President Pat Byers said that “as ambassadors of technology at our core, EDM fluid runs through our veins.”

In fact, Pat’s father Walt was a research engineer directly involved in revolutionizing the entire EDM process in the 1950s.

“We are thrilled to have Km Industrial Machinery join our team,” said Alan Hallman, national sales manager of MC Machinery’s EDM/Machining Division. “They have tremendous experience and depth of knowledge in EDM and milling, along with outstanding customer service and a beautiful new facility.”
